Letter of Recommendation

To whom it may concern

From 2012 to 2017, the presently world's biggest sailing yacht, "A", was built at the facilities of German Naval Yards Kiel. We hereby confirm that during this time, the Kiel-based company Alphastone GmbH & Co. KG served as one of the main technical suppliers.

To our full satisfaction, they delivered equipment, wearing and spare parts of all kinds, e.g. electrical components, tools and fittings, as well as filters, hydraulic hoses, chemicals, and gasses. Among the exceptionally reliable and timely services that they provided were the sourcing, labelling, and delivery of the parts as well as technical consultancy.

We selected this Supplier based on the known quality of overall service provided by the family-managed firm and its two decades of experience in the global shipping business. Therefore, the motivated team of Alphastone GmbH & Co. KG can rely on an extensive network of national and international suppliers and partners. The employees worked discretely and with a hands-on approach: fast and diligently. Each of them focused on the quality of the services provided and gained our full trust.

Thus, we would like to take this chance to highly recommend Alphastone GmbH & Co. KG as your partner in all your vessel requirements.

With best regards,

Dirk Kloosterman
Project Manager
